Update on JEE and Country Planning Post JEE

GHSA Steering Group Meeting

21 January 2017, Geneva
WHE Conceptual Framework

Early Warning, Risk Assessment & Emergency Response

Prevention & Control Strategies for High-Threat Infectious Hazards

IHR Assessment and Critical Core Capacities

Health Systems Strengthening in High Vulnerability Countries

WHO Health Emergency Programme (WHE)
Country Health Emergency Preparedness & IHR
Guiding Frameworks
The IHR Monitoring & Evaluation Framework:

- Follows WHA68.5 ("move from exclusive self-evaluation")
- Noted by WHA69
- Endorsed by WHO GPG
3 Key Principles (Regional Committees feedback)

► **Country ownership** (national sovereignty; voluntary JEE)

► **WHO leadership** (WHO as the custodian of IHR)

► **Active partnership**

  - Global Health Security Agenda: $ support to JEE mission by **Finland, Germany, USA**
  - Alliance for Country Assessments for Global Health Security and IHR Implementation
  - Strategic Partnership Portal: [https://extranet.who.int/donorportal/](https://extranet.who.int/donorportal/)
  - JEE Roster of Experts / JEE Technical partners:

...and more
JEE Missions
(Jan.2017)

28 COMPLETED
31 IN PIPELINE 2017

Afghanistan, Albania, Armenia, Bahrain, Bangladesh, Belize, Cote d'Ivoire, Cambodia, Eritrea, Ethiopia, Jordan, Kyrgyzstan, Lebanon, Liberia, Morocco, Mozambique, Namibia, Pakistan, Qatar, Senegal, Sierra Leone, Somalia, Sudan, Tunisia, Turkmenistan, United Republic of Tanzania, United States of America, Viet Nam

Australia, Belgium, Comoros, Djibouti, Finland, Ghana, Iraq, Japan, Kenya, Kuwait, Lao People's Democratic Republic, Latvia, Libya, Malaysia, Maldives, Mauritania, Mongolia, Myanmar, New Zealand, Oman, Pacific Island Countries, Philippines, Republic of Korea, Saudi Arabia, Singapore, Slovenia, Sri Lanka, Switzerland & Liechtenstein, Thailand, United Arab Emirates, Zanzibar
A Comprehensive Process

- JEE Missions
- Country planning
- Implementation of National Action Plan
- After-Action Reviews & Simulation Exercises
Strategic Partnership For Country Planning (Post JEE) Processes

1. JEE MISSION
   - Evaluation
   - Report & Recommendations
   - Country Planning Briefing

2. POST JEE MISSION
   - Stakeholders Debrief
   - National Coordination
   - Drafting Priorities
   - Draft Concept Note

3. PRE-WORKSHOP
   - Draft Country M&E
   - Workshop Preparation
   - Drafting Plan & Mapping Resources
   - Workshop Agenda
   - Engagement & Link

4. COUNTRY PLANNING WORKSHOP
   - Completing Priorities
   - External Input
   - Resource Allocation
   - National Action Plan
   - National Commitment

5. COSTING & IMPLEMENTATION
   - Cost Estimation
   - Budget Process
   - Strategic Partnership Financing Forum
   - Monitoring & Evaluation
   - Implementation

WHO Health Emergency Programme (WHE)
Country Health Emergency Preparedness & IHR
Strategic Partnership for Country Planning

(Jan.2017)

2 COMPLETED

8 IN PIPELINE 2017

COMPLETED

Tanzania, Pakistan

IN PIPELINE

Bangladesh, Cambodia, Ethiopia, Eritrea, Jordan, Liberia, Mozambique, Sierra Leone.

INTERESTED

22 countries
Lesson Learned From Tanzania & Pakistan

Each country is different with its own health infrastructure, social, political and financial features and has its own priorities.

- Not yet a validated methodology for costing of national plan.
- Detailed consultation with relevant ministries and administrative levels to convert JEE recommendations into action plan.
- Ownership and delivery of national plan under the authority of Prime Minister or President’s office
- A ‘Coordinating Platform’ is essential to consider all related plans and initiatives: e.g. GHSA Action Packages
- A validated national action plan in line with national health system planning; with validated costing and financing.
JEE Missions Team Leads Training

• Brazzaville, Congo 19-21 Oct.
• Lyon, France 31 January – 1 February, 2017

One Health: National Bridging Workshops
(National experts from MoH and MoA share experience on IHR monitoring and PVS Pathway missions; WHO & OIE)

• Costa Rica, 8-10 March 2016
(follows the 2014 bridging workshops in Baku, Azerbaijan, and Bangkok, Thailand)
The SPP is a Member States mandated information-sharing Web portal to enhance communication between countries, donors, partners, and WHO with regards to financial and technical support provided to countries.
After-Action Review & Simulation Exercises

**Action Reviews:** qualitative review of actions taken to identify lessons and gaps that emerged during the response to an emergency.

**Simulation exercises:** provide an evidence-based assessment for the monitoring and testing of response functional capacity.

- Strengthen national capacities to prepare for, detect and respond to public health emergency.
- Evaluate functionality of capacities under IHR.
- Contribute to mutual accountability, trust and dialogue between countries.
After-Action Review & Simulation Exercises

(Jan.2017)

21 COMPLETED

15 IN PIPELINE

Côte d`Ivoire, Burkina Faso, Chad, Democratic Republic of the Congo, Egypt, Germany, Hungary, Indonesia, Malawi, Sweden, Switzerland, Tanzania, Togo, Turkmenistan, Uganda.

Note: Different types of exercises: Table-top, Drills, Functional, Full Scale
Next Steps for 2017 and beyond

- **Inter-Agency collaboration** (long-term commitment)
- **Planned budget** (2017-2019)
  - JEE missions
  - National Action Plans missions
- **Quality indicators** (JEE missions)
- **Monitoring** of implementation of national plans
- Long-term sustainability
- Report to WHA
Coming Meetings

**Geneva**

27-28 February 2017

STRATEGIC PARTNERSHIPS FOR COUNTRY PLANNING POST JEE

Stakeholders Consultation on Planning, Costing, and Financing for Accelerated IHR Implementation and Global Health Security

19-21 April 2017

JEE Tool & Process Review Meeting

WHO Health Emergency Programme (WHE)
Country Health Emergency Preparedness & IHR
THANK YOU

Thank you for the partnership!
